

TOSSAL GROS ROUTE

This is the most difficult route that we propose but it is worth the effort for its views. Once in the highest zone, you can not only view **Montgó**, el **Cap Sant Antoni** and el **Puig Llorença**, as well as **Bèrnia** and the coastline of **Moraira**; on clear days you can even see the island of **Ibiza** and **Mallorca**. It is just over 20 km with 3.5 km of continuous ascent, thus you must be in very good shape or at least accustomed to cycling.

DESCRIPTION:

This route becomes difficult once you pass **the golf club**, where we find the hardest ascent section which takes us to the scenic viewpoints zone. As a reward, you can enjoy its spectacular views and a descent of almost 4 km which crosses a pretty little wooded section in the **Rafalet** zone.
